

RAINBOW

Anglers Club

VANCOUVER, WASHINGTON

November 20, 1963

Ernest L. Perry
Colonel, Corps of Engineers
District Engineer
1519 Alaskan Way South
Seattle, Washington 98134

Dear Sir:

The Rainbow Anglers Club of Vancouver, Washington **oppose the dredging of the Skagit River and any future proposals for dams in that area.** This is one of the few remaining spawning grounds for Steelhead and Salmon in the state of Washington. The destroying of this spawning grounds would seriously affect the value of the area and the economy of both the Skagit and Snohomish counties and the states that utilize fish produced by this river.

Sincerely your,

J. Ailene Cammack
