Dear Dick:

At the July 25th, 1975 Coos Bay meeting of the Pacific Northwest Waterways Association, the Flood Control Committee highly recommended the Skagit River Levees, Upper Baker Dam project and a study on the Sauk River.

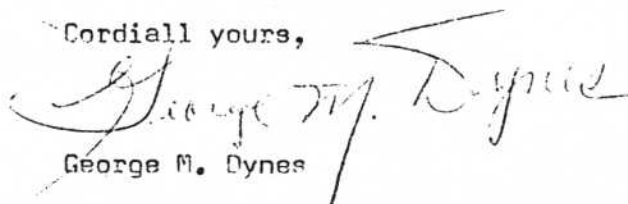

We are going to push this and have already asked our two Senators and Congressman to support us. Senator Jackson has already sent in the request and I am trying to follow up on this.

Where are we and what further needs to be done?

I have asked Mike Stewart, of Senator Magnuson's Staff, to head this up but have not heard from him yet. Will be calling him real soon.

Any information would be appreciated.

Cordially yours,

George M. Dynes
