Subject: FW: Web page and your concerns

Dave, I asked EI to respond to Larry earlier this week and indeed, Polly and Val have been out of their office. I don't really want to be at Larry's beckon call. Do I need to change my attitude?

JVV

Larry,

I got your messages today. We apologize for not getting back to you sooner, but I do have an excuse, a doctor's. I have been out for surgery and recovery. In addition, Polly has been out of the office on travel. As a result, we could not get back to you as quickly as we normally do. Thanks for your offer of smoked salmon. It sounds great! With respect to the web page, the County is adding some touches to the draft that we sent that includes your material. They are adding pictures and material for other sections. They should be finishing this reasonably soon. With respect to the facilitations, I am pleased with the group's progress and pleased to have your involvement. As for how the group will function after the next two meetings, that is still under consideration. As you know, the next part of the process involves work by the COE to conduct studies and prepare a draft EIS. It is not clear what the Working Group's involvement will be in this process. It is a good question and one that we know others may be curious about. Hope all is well with you. I am very much on the mend, but I have been a bit out of commission.

Sincerely, Valerie Lee
