Subject: Consensus!

Dear Working Group Participants,

In our June 25 meeting, the working group participants present reached consensus from the perspective of the Working Group regarding identification of the two "preferred alternatives" for analysis as a part of the environmental impact statement. Participants requested that we prepare a short report of proceedings. As a first step, attached find a statement of agreement memorializing the consensus of those present at the last meeting. EI also intends to prepare an executive summary of proceedings for your review. We anticipate holding a short working group meeting over lunch in the next couple of weeks to bring these documents to closure.

For those of you who could not make the last meeting, once you have reviewed the Statement of Agreement, please contact me by e-mail and phone so that we can note whether or not you concur in the consensus reached. For those who were present at the meeting, I would also appreciate your reviewing the statement of agreement and let me know if this is acceptable. It would be helpful to know whether the Statement of Agreement is a document that all in the Working Group can sign.

Kudos to all for a successful process! We appreciate the time and effort you devoted to the working group.

Should you have questions, suggestions, comments, or responses, I can be reached at (206) 525-3362. Happy 4th of July!

Sincerely,

Valerie Lee
