

Worksession – Comprehensive Flood Hazard Management Plan (CFHMP)

April 8th, 2003

1. **Introductions – What is a CFHMP?**
2. **Why do we need one?**
 - Required by RCW 86.12 and 86.26
 - Required by FCAAP Grant
 - Required by NFIP CRS program
 - Planning instrument
 - Needed to get future \$\$\$\$
3. **Do we have one now?**
 - Current CFHMP completed in 1989
 - Goal – FCAAP Compliance
 - Goal – Coordination of DD efforts
4. **What are the elements of a CHFHMP?**
 - Flood History
 - Alternative Management Measures including structural/non-structural
 - Evaluation of Alternatives
 - Environmental Impacts
 - Recommendations
5. **How will we develop a CHFHMP?**
 - Staff compilation from existing material
 - Review and recommendation from existing Flood Control Committee
 - Public input
 - Agency and DOE Input

6. How will this fit into the Multi Hazard Planning currently being conducted by DEM/Dike 12?

- **Incorporated as county flood component of natural disaster mitigation either directly or by reference.**

7. What is the adoption process?

- **FCC Review and Recommendation**
- **BCC Review and Adoption**
- **DOE Approval**
- **City(s) Adoption**
- **Arbitration**
