SKAGIT COUNTY
STATE OF WASHINGTON
MOUNT VERNON

January 17, 1967

C. C. Holbrook, Colonel
U. S. Corps of Army Engineers
Seattle District
1519 Alaskan Way South
Seattle, Washington 98134

Dear Colonel Holbrook:

The Skagit County Board of Commissioners at this time are contemplating the establishment of a Citizens Advisory Committee on Flood Control, comprised of fifteen (15) members. The committee members will primarily consist of engineers, city officials, dike and drainage commissioners and two representatives from the Skagit County Development Association. It is our hope that the Corps of Engineers would be able to present all of their contemplated programs to this liaison group in the future.

Skagit County also intends to set up a county-wide flood control district to more adequately handle the responsibility of major and small projects.

It is our further desire to set up a more qualified staff to handle flood control items in the future. These items will materially be somewhat contingent upon the recommendations of the Citizens Advisory Committee.

We trust our proposed plans for Skagit County will help to answer your inquiry dated August 25, 1966, NPSEN-PL-TE, and your inquiry of December 8th, 1966 regarding same reference title.

Skagit County appreciates the cooperation of the Corps on these matters.

Respectfully,

BOARD OF SKAGIT COUNTY COMMISSIONERS

Jack Wylie
